Class

1. Fall Calving Heifer:
Estimated calving date (September 15 thru December 15)
2. Spring Calving Heifer:
Estimated calving date (January 1 thru May 1)

Member Eligibility

To be eligible for this Beef Replacement Heifer Project the exhibitor must be a member in good standing of a 4-H Club or FFA Chapter in Modoc or Siskiyou counties in the 10-A District, or be a qualified independent junior exhibitor from Modoc or Siskiyou counties in the 10-A District.

Heifer Eligibility

Registered or grade beef replacement heifers are eligible projects. Grade heifers must be without horns. The sire of the heifer must be of a beef breed. If an exhibitor declares that the heifer is registered, the registration papers must be signed off and submitted to the Livestock Office before the heifer will be allowed to sell. Heifers must be bred and purchased from a breeder in Modoc, Siskiyou, or Klamath Counties.

The age limit for a heifer is a minimum of 15 months and a maximum of 30 months on the opening day of the fair. Heifers must weigh a minimum of 900 pounds at the weigh-in during the fair and be bred to calve between September 15th thru December 15th and from January 1st thru May 1st. These requirements will be verified at the scale by the certified weigh master, the attending veterinarian, and fair management. Those heifers that do not meet criteria will be disqualified from show competition.

Ownership Requirements and Project Agreement

The project members must have ownership of their heifer no later than 120 days before fair. Heifers must be weighed and tagged at the pre-weigh. The *original* Bill of Sale must be retained by the exhibitor and presented to the State Brand Inspector at the Fair.

Substitutions

If a breeding or health problem should occur, as evidenced by a veterinarian of the 4-H Leader/FFA Instructor, a substitute heifer may be allowed if owned by the member on or before the 120 day ownership requirement and was tagged and weighed at that time.

Breeding a Project Management

Heifers must be bred to calve between September 15th thru December 15th and from January 1st thru May 1st. Two calving divisions will be available at the fair, (1) Fall Calving Division and (2) Spring Calving Division. Heifers will be preg-checked on weigh day at the Fair by a veterinarian specified by Fair Management. Heifers that are not bred within the specified calving times will be disqualified from show competition. Heifers may be bred naturally, or by artificial insemination. They should be bred to bulls with low birth weights in order to reduce difficulty in calving. Accurate records must be kept on the heifers. It is important that members have dates written down as to when the heifer was exposed to that bull and any data that could be beneficial to the potential buyer.

Health

At the start of the project, members should seek advice from a local veterinarian about preventing diseases such as Leptospirosis, Vibrosis, Anaplosmosis, and Brucellosis. State law requires that beef heifers over twelve (12) months of age show evidence of the calfhood brucellosis vaccination if they are sold within the state of California for breeding purposes. Therefore, it is mandatory that the brucellosis ear tag number (orange metal clip number) and tattoo number be entered on the entry form. All heifers will be checked upon arrival on the Fairgrounds and those heifers having no tattoo shall be disqualified from show competition.

Judging

The Danish System of Judging will be used at the Fair, giving an exhibitor three (3) possible group placings; Purple, Blue and Red. A Grand Champion and Reserve Grade Champion Beef Replacement Heifer will be selected by the judge(s). Heifers awarded purple and blue ribbons in show competition will qualify for the Beef Replacement Heifer sale held during the Fair. Heifers that receive a red ribbon do not qualify for the sale and will not be allowed to sell in the Replacement Heifer Sale. Heifers that qualify for the sale are not required to sell, but must inform the livestock office within one hour following the heifer show in order to be removed from the sale order. The Grand and Reserve Champion heifers must sell in the Replacement Heifer Sale.

Replacement Heifer Sale

An exhibitor may enter and exhibit up to three (3) beef replacement heifers, but not sell more than one beef replacement heifer at the fair per year. Only those heifers placing in the top two groups (Purple and Blue) will be eligible to sell. A commission charge of 8% will be deducted from the exhibitor's sale proceeds. If a heifer calves during the Fair and has qualified for the sale, she will be eligible to be sold with the calf by her side provided that the calf is healthy and the heifer is controllable.

Release of Replacement Heifers

The fair would prefer that the replacement heifers sold in the Heifer Sale stay on the fairgrounds throughout the week of fair and released on Sunday during the scheduled release time. If a buyer requests to transport their purchase(s) immediately after the sale, permission must be obtained by fair management and load-out guidelines provided by fair management must be followed in order to

ensure the safety of the public and non-interference with fair-time events. Heifers who do not qualify for the sale must remain on the fairgrounds throughout the week of fair and will be released at the normal scheduled release time.

Temperament of Heifer

Heifers must be gentle and trained to lead with a show halter. The Fair Management reserves the right to disqualify any animal as ineligible for show competition, and order the removal of any beef entry that is not gentle and properly halter broke to lead, and which could therefore endanger other exhibitors and Fair-going public. In the event that an animal injures a member of the Fair-going public, the exhibitor (not the TBVF) is liable.

JUNIOR DAIRY CATTLE

NOTE: Senior and junior yearlings in milk must be shown with two-year-olds. Note "In Milk" on your entry form. May be either registered or unregistered by a purebred sire.
